

## COFFEE BLONDE

Aged on coffee beans, our blonde ale leads with an amazing aroma of fresh-brewed coffee. This ale is light and compliments the roasted bitterness of the coffee flavor that follows. The perfect beer for any time of day!

Springfield Beer Company opened its doors in 2019, and since then, we have been serving up our customer favorite, Coffee Blonde Ale. When customers think of a coffee beer, they immediately think of a stout. This beer however, is very light and refreshing. It's everything you love about a light beer combined with the taste and aroma of a cup of coffee!

Our flagship beer was perfected one small batch at a time, finding the perfect, high quality coffee bean to compliment the beer.
